Track Office

A Hidden Monitoring tool

Monitoring is **MUST**, to ensure your employees are doing the work they're being paid to do. Whether your work force are all on the same network or remote workers, employee monitoring is a necessary layer of precaution to ensure employees are following best practices when it comes to Company Data and Security. TRACK OFFICE Software is best software available to meet all such Monitoring Essentials for the Management.

From  **START UP...to SHUT DOWN**

RECORDS → Everything

MONITORS → Always

RESTRICTS → UNWANTED

FEATURES:

1. **STAFF TRACK Software is HIDDEN**, wont be visible in Desktop, Programs and in Control Panel. Secret **THREE KEY** combination is used to Open the Software.

2. **Software SEND Daily Activity** of Staff on your **MOBILE/EMAIL** , Automatically.

Web Sites visited # Software accessed

Files/Folders opened # Keyboard and Mouse Used Register

3. **Software records, monitors and Captures** details of all chats and messaging they do.

4. **Its One-time Paid Software**, there is no **YEARLY RENEWAL CHARGES**.

5. **Software also Allow or Block Websites** to stop employees from using unethical Internet activity. It's easy now to stop employees from visiting social websites, gaming sites, music sites, movies, chatting in office hours.

6. **Prevent employees from Watching porn sites** in office

7. Get password of employees : Let us clarify first that you are not doing any crime, if you record passwords of your employees. It's your basic right to know what your employees are doing in office and that too, using office computers. This feature is very useful when Employees leave the company without intimation and the owner is not aware of their email password or application password.

8. SMS alerts when a Blocked word is used by Staff (Eg: When a Staff do searches for a Word “Porn”, a SMS is received by EMPLOYER). You can Set as many number of Blocked words.

9. Drive lock management and data leakage elimination : Lock USB Drive, partitioned hard disc drive, CD or DVD drive or floppy drive to eliminate misuse of your important data. Stop employees copying / leaking important data of your company if they're willing to do so. Uploading, copying, transferring of important data are very common in organisations which can make a big loss. Stop all these using “ TRACK OFFICE SOFTWARE”.

9. Eliminate risk of DATA/EMAIL/COMPUTER hacking: This is one of the biggest issues of today's world. “TRACK OFFICE SOFTWARE” eliminates risk of data hacking, email hacking, computer and network hacking. This software removes threads smartly and saves your information from being hacked or traced

10. Stop your employees doing Cyber Crime in office : Please get aware of the fact that if any cyber crime / computer / Internet / email related crime is done in the office then you may have to face legal proceedings as you are the owner of your office computers and intellectual properties. “TRACK OFFICE SOFTWARE” reports are so professional that you can use them as evidences as and when required. Also note that employees download pirated softwares,

11. Employee faithfulness Register: A very powerful report offered by “TRACK OFFICE SOFTWARE” to check faithfulness of your employees. Get day-to-day faithfulness registers of your Employees with graphical outputs.

12. Send Alerts and fake messages to employees: You can use this feature optionally. Send alerts and fake messages instantly if your employees are doing unethical or illegal activities. They will get messages on their desktop mentioning someone is watching them and unwanted activities will be stopped on immediate basis. You can disable this option if you do not want to use it.
